BRIGHT IDEAS *with* DECORATIVE GLASS

WHAT IS DECORATIVE GLASS?

Decorative or Patterned Glasses are flat-rolled glasses in which a distinctive pattern is impressed into one or both surface during manufacture. More than 20 different attractively designed patterns are included in the Blue Ridge line. All of them are translucent, as compared with the ordinary materials which they replace . . . and all provide for diffused transmission of natural daylight. Blue Ridge Patterned Glasses may be *Securitized*, (heat-tempered), for greater resistance to thermal and physical shock. As used by architects and decorators, Decorative Glasses create an individual touch and an air of practicality that distinguish modern homes from those of earlier eras.

Look of Luxury

WITH PRACTICAL USES OF DECORATIVE GLASS

In quality and rich appearance, and those little details that delight the heart of the homemaker, *Decorative Glass* can play a major role. Contrary to your expectations, *Decorative Glass* is not expensive . . . for it generally supercedes, with far greater advantages and practicality, ordinary and nontransparent materials which exclude light.

Therein lies the secret of these new Figured Glasses. By permitting the entrance of light, *Decorative Glass* by Blue Ridge creates a far brighter, cheerier and happier home life for thousands of American homeowners.

Your architect or decorator is familiar with the Blue Ridge line of Patterned Glasses. See the back cover of this book for "Aid in Buying" or write the Blue Ridge Sales Division, Libbey-Owens-Ford Glass Company, Nicholas Building, Toledo 3, Ohio.

ADDS CHARM TO

In the one room where gracious living and personality count, Decorative Glass can provide a scintillating background for wholesome hospitality. The bright shimmer of artificial lights on these smartly patterned glasses will do exciting things for your living room . . . make it glamorous . . . give it richness and quality. By day, there's a welcome surge of daylight, yet privacy is assured by the glass itself. No matter whether your living room includes broad expanses of figured glass or mere touches of this material, the effect is exciting and practical. You'll be amazed at the low cost of these new features.

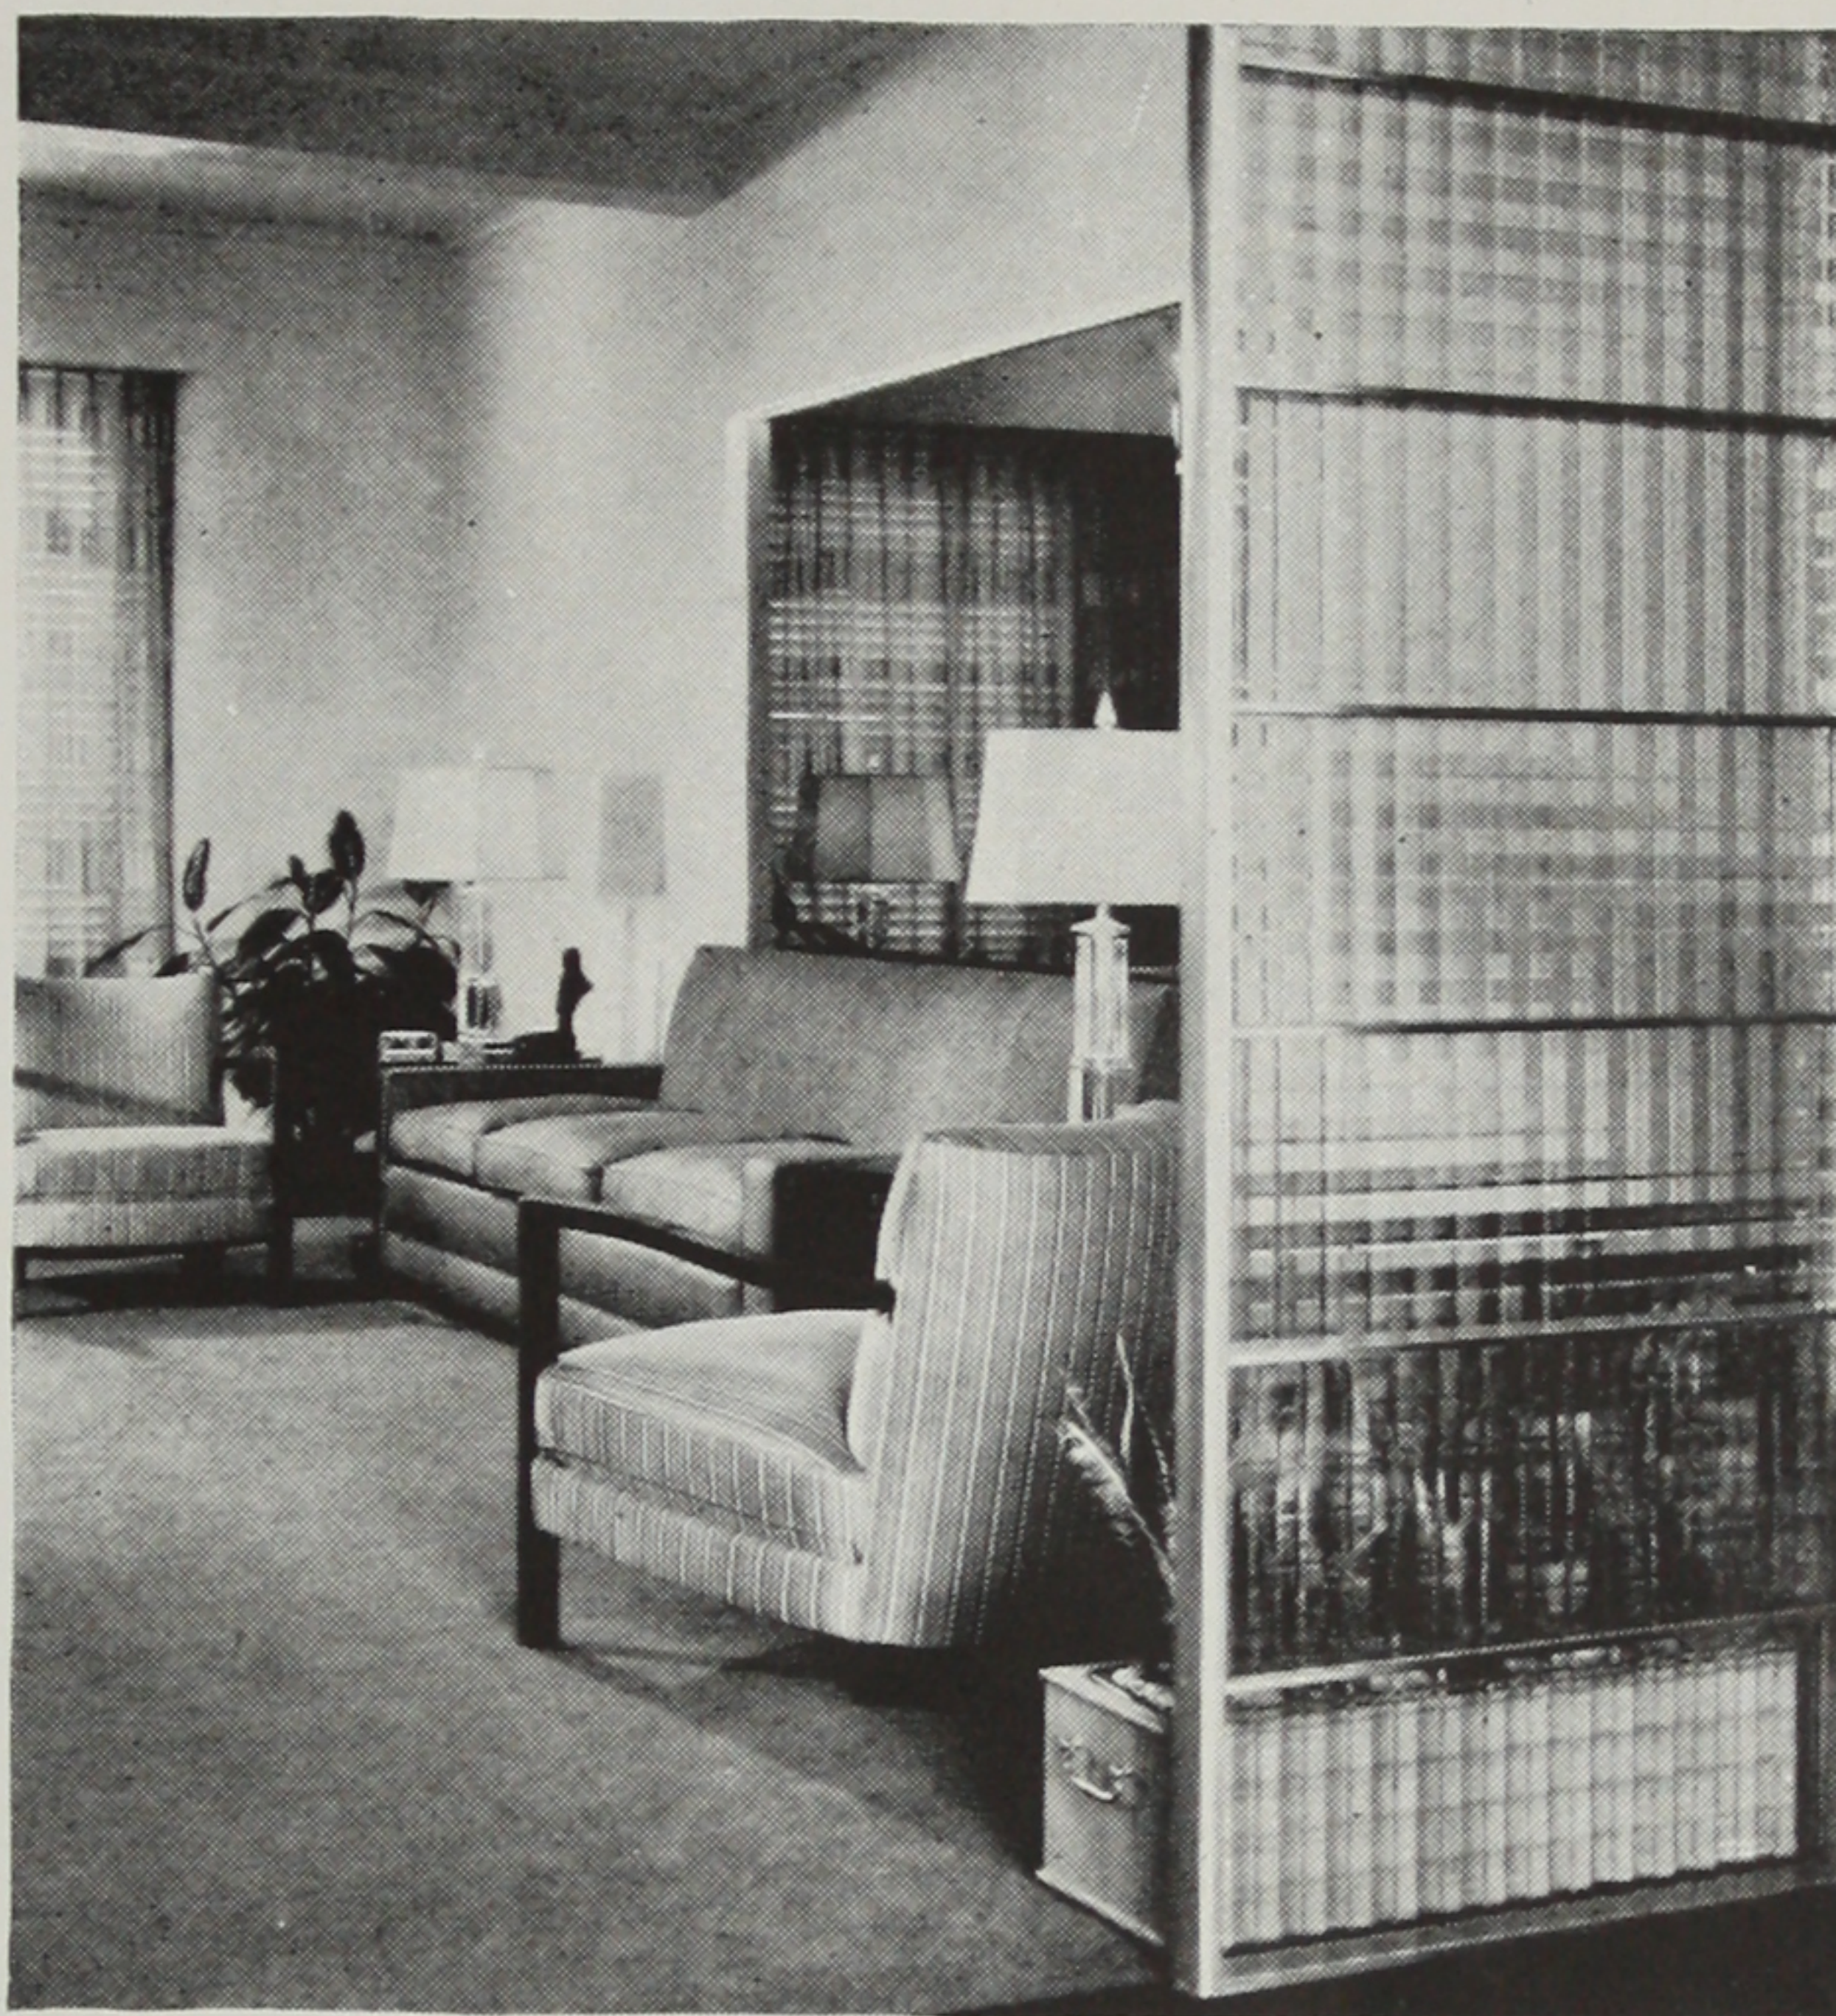

★ DOUBLE EXPOSURE to light . . . this handsome sliding partition of Louvrex Glass helps light two rooms . . . and slides open to make a "double room" when you so desire.

THE *Living Room*

↑ TWO ROOMS FROM ONE . . . a sparkling partition of Doublex Glass screens one area from another, while helping provide both with light. A grand way to separate the living room from the dining room or library.

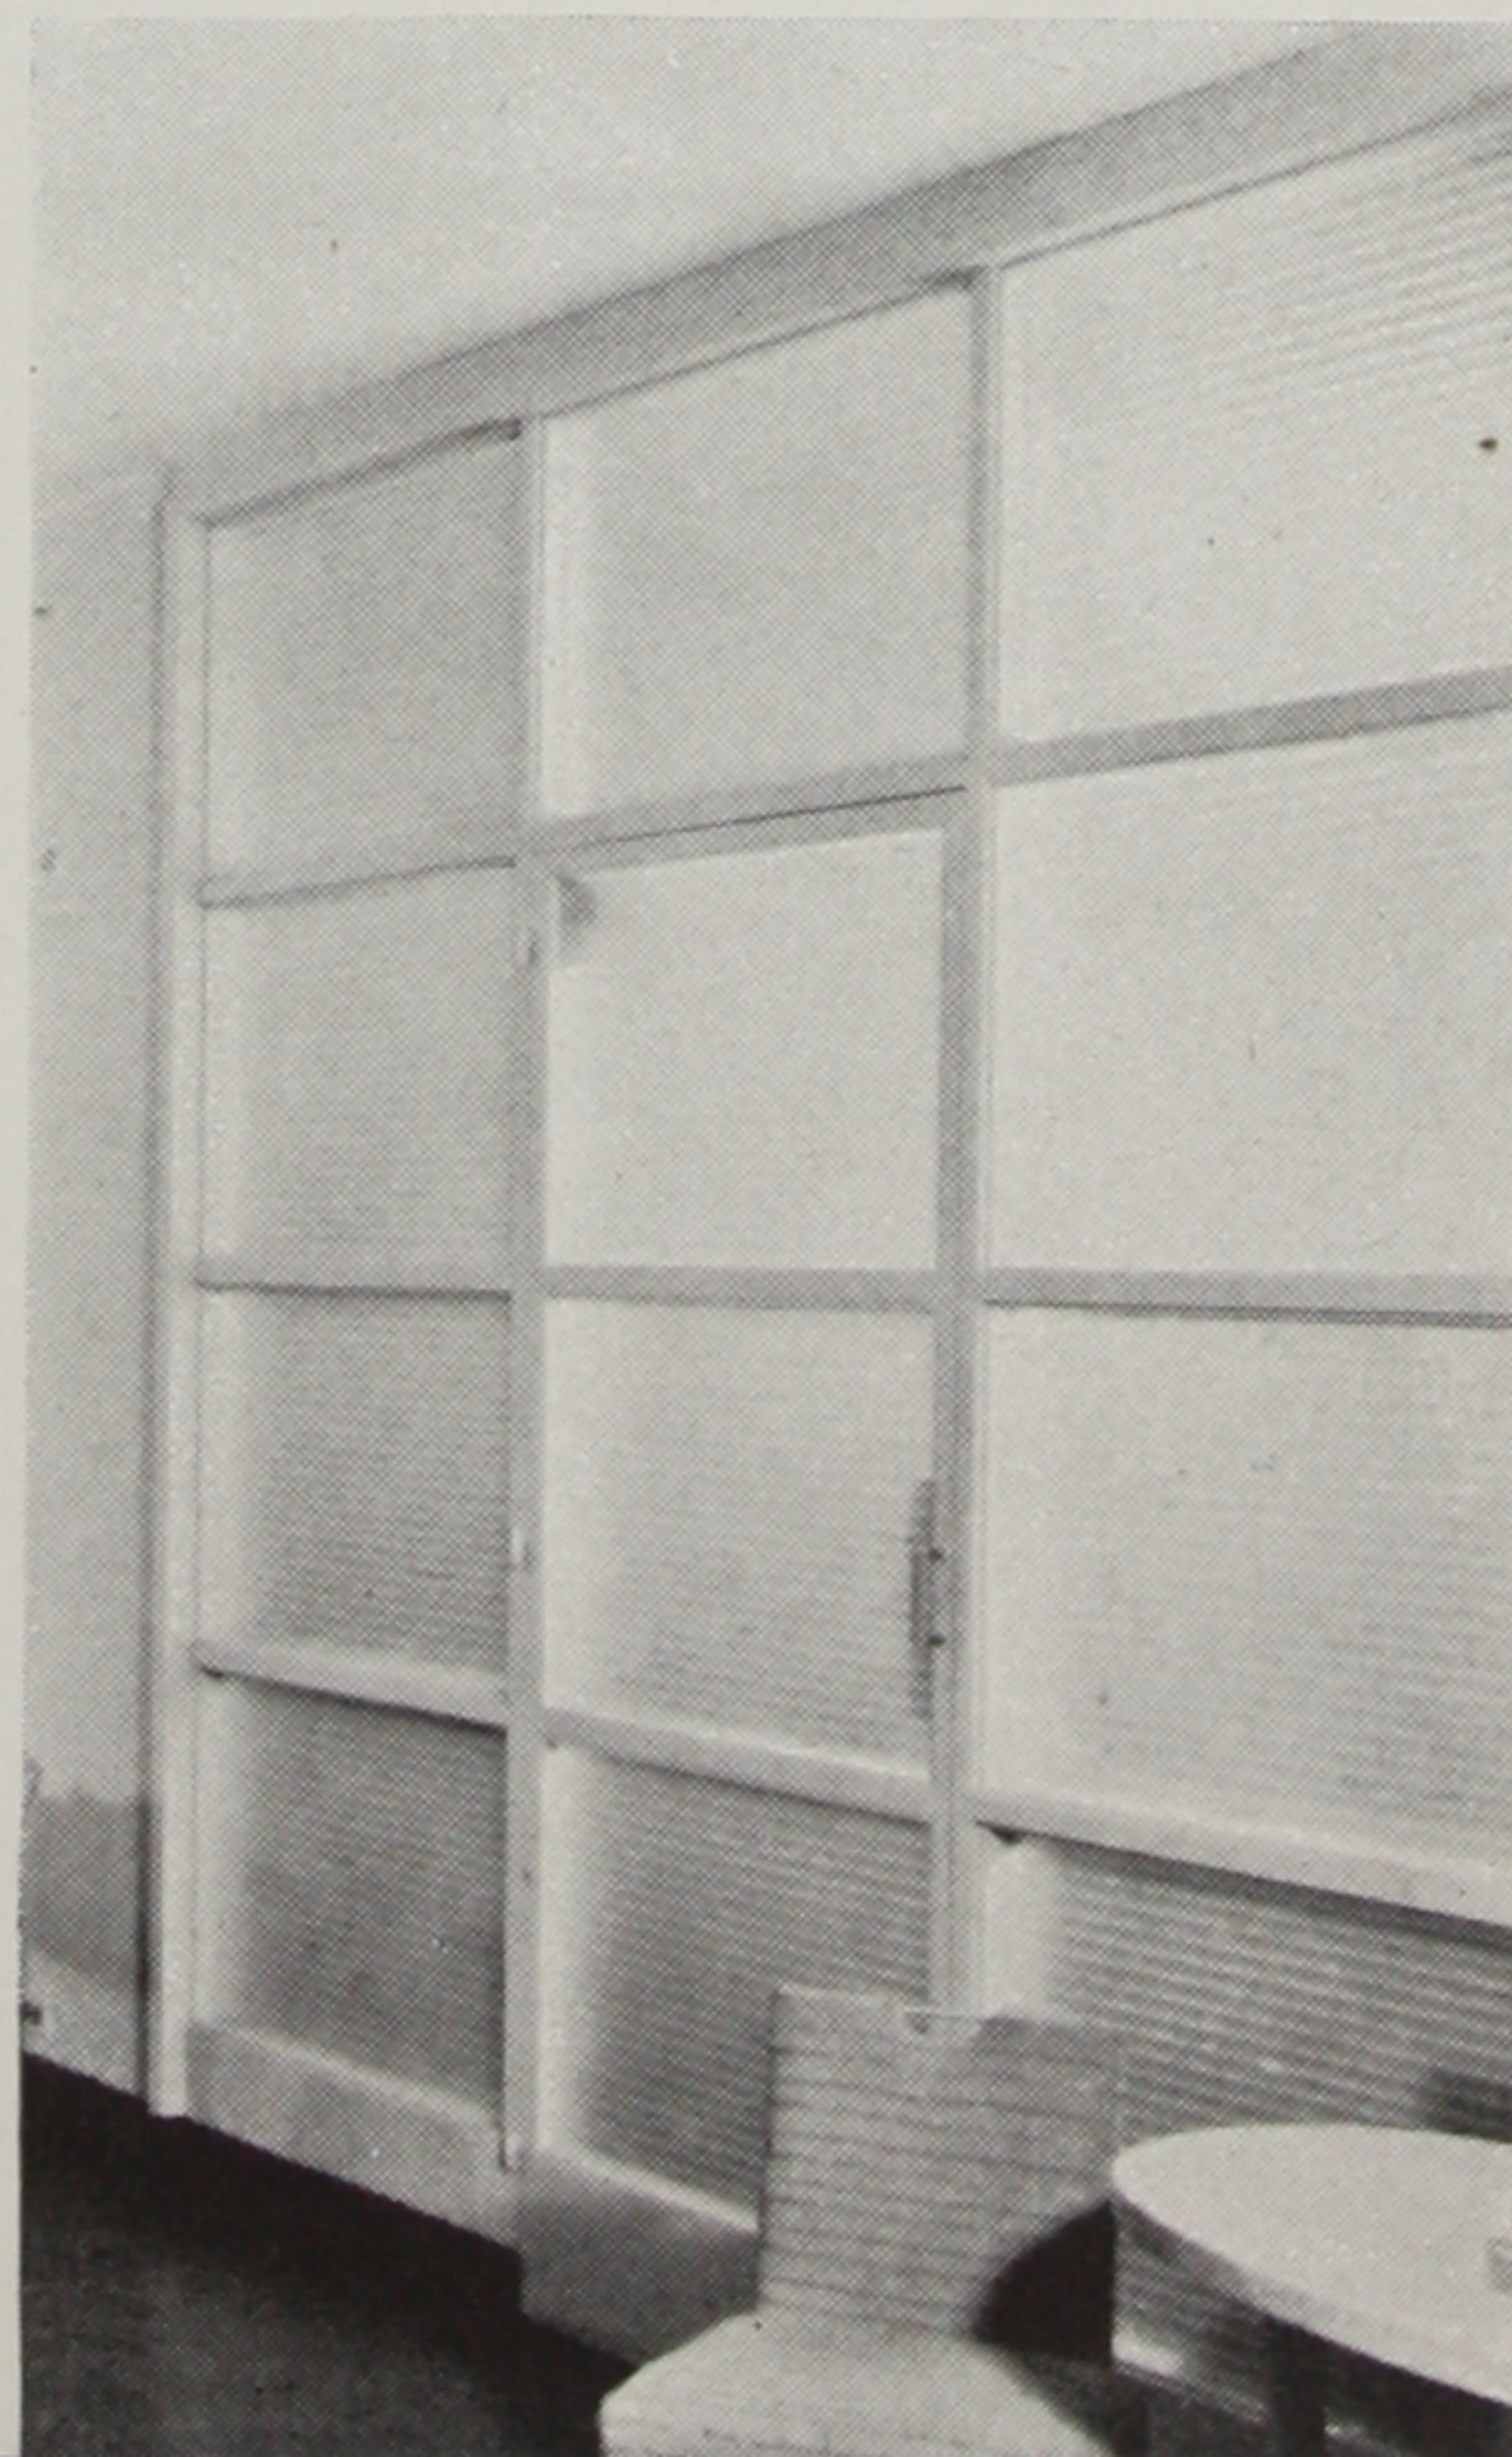

↑ ADDED PRIVACY without sacrificing light or cheerfulness is achieved by a tall, ceiling-to-floor panel of Blue Ridge Doublex Glass. It's an important decorative feature as well.

← AFTER SUNSET, you can create a light, cheery atmosphere with fluorescent lights concealed above translucent panels of handsome, figured glass.

→ LIGHT TWO ROOMS from one set of windows, when you use a figured glass wall like this. It's a grand way to create a hallway that's cheery and light.

MODERN

Kitchens

WELCOME

How's your pride and joy—that daily workroom—the kitchen? Does it give you cleaning grief . . . shut you in gloom for hours at a time like a medieval dungeon? Well then, it's about time you looked into the sparkling advantages of Decorative Glass. Daylight fairly pours through it (without interfering with your privacy one bit). Makes work surfaces so cheery, so pleasant, that the chores seem fairly to whisk themselves to completion. The glass itself needs just a damp cloth to keep it spotlessly spick-and-span . . . it fairly *glistens* with cleanliness. No muss, no fuss, no expensive refinishing. It always looks good as new. You'll love it in your pet room.

ENJOY FULL PRIVACY in your daily kitchen routine. Notice how the decorative beauty of the Doublex window eliminates need of curtains . . . one item less to launder.

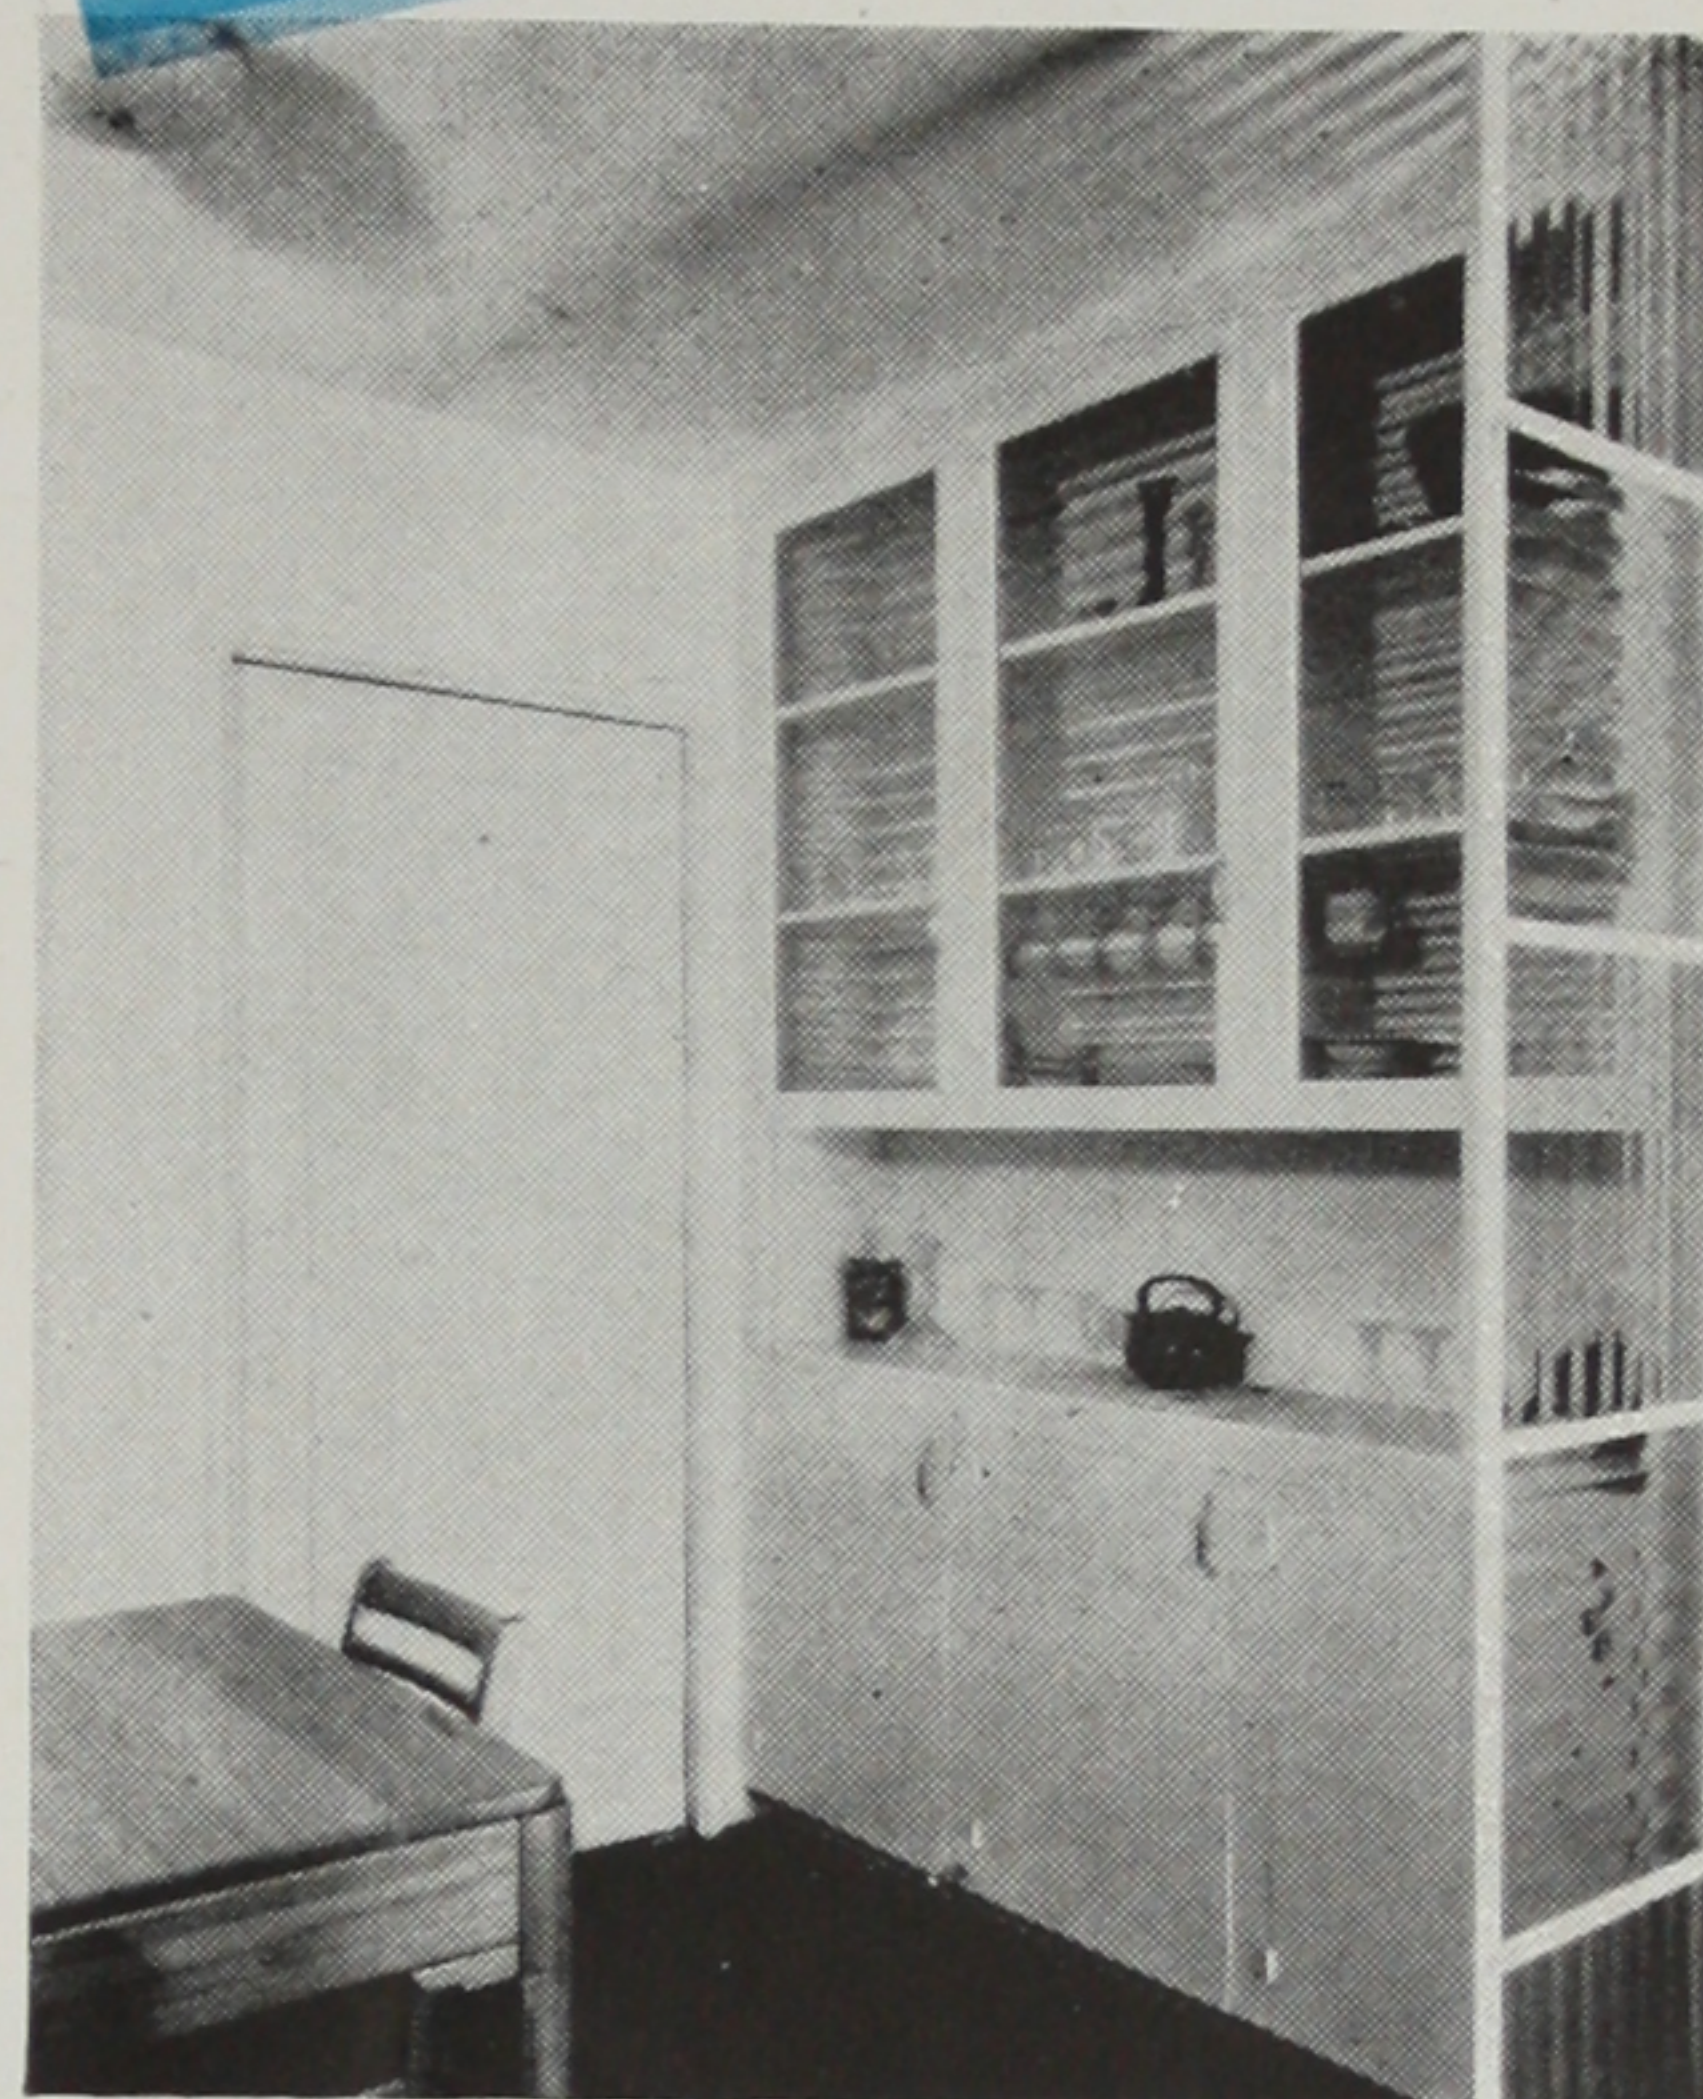

ADD THE COLOR of preserves to your kitchen. Behind sliding panels of Flutex, they add sparkle to your kitchen. Easy searching, too, for your favorite jar of jam or fruit.

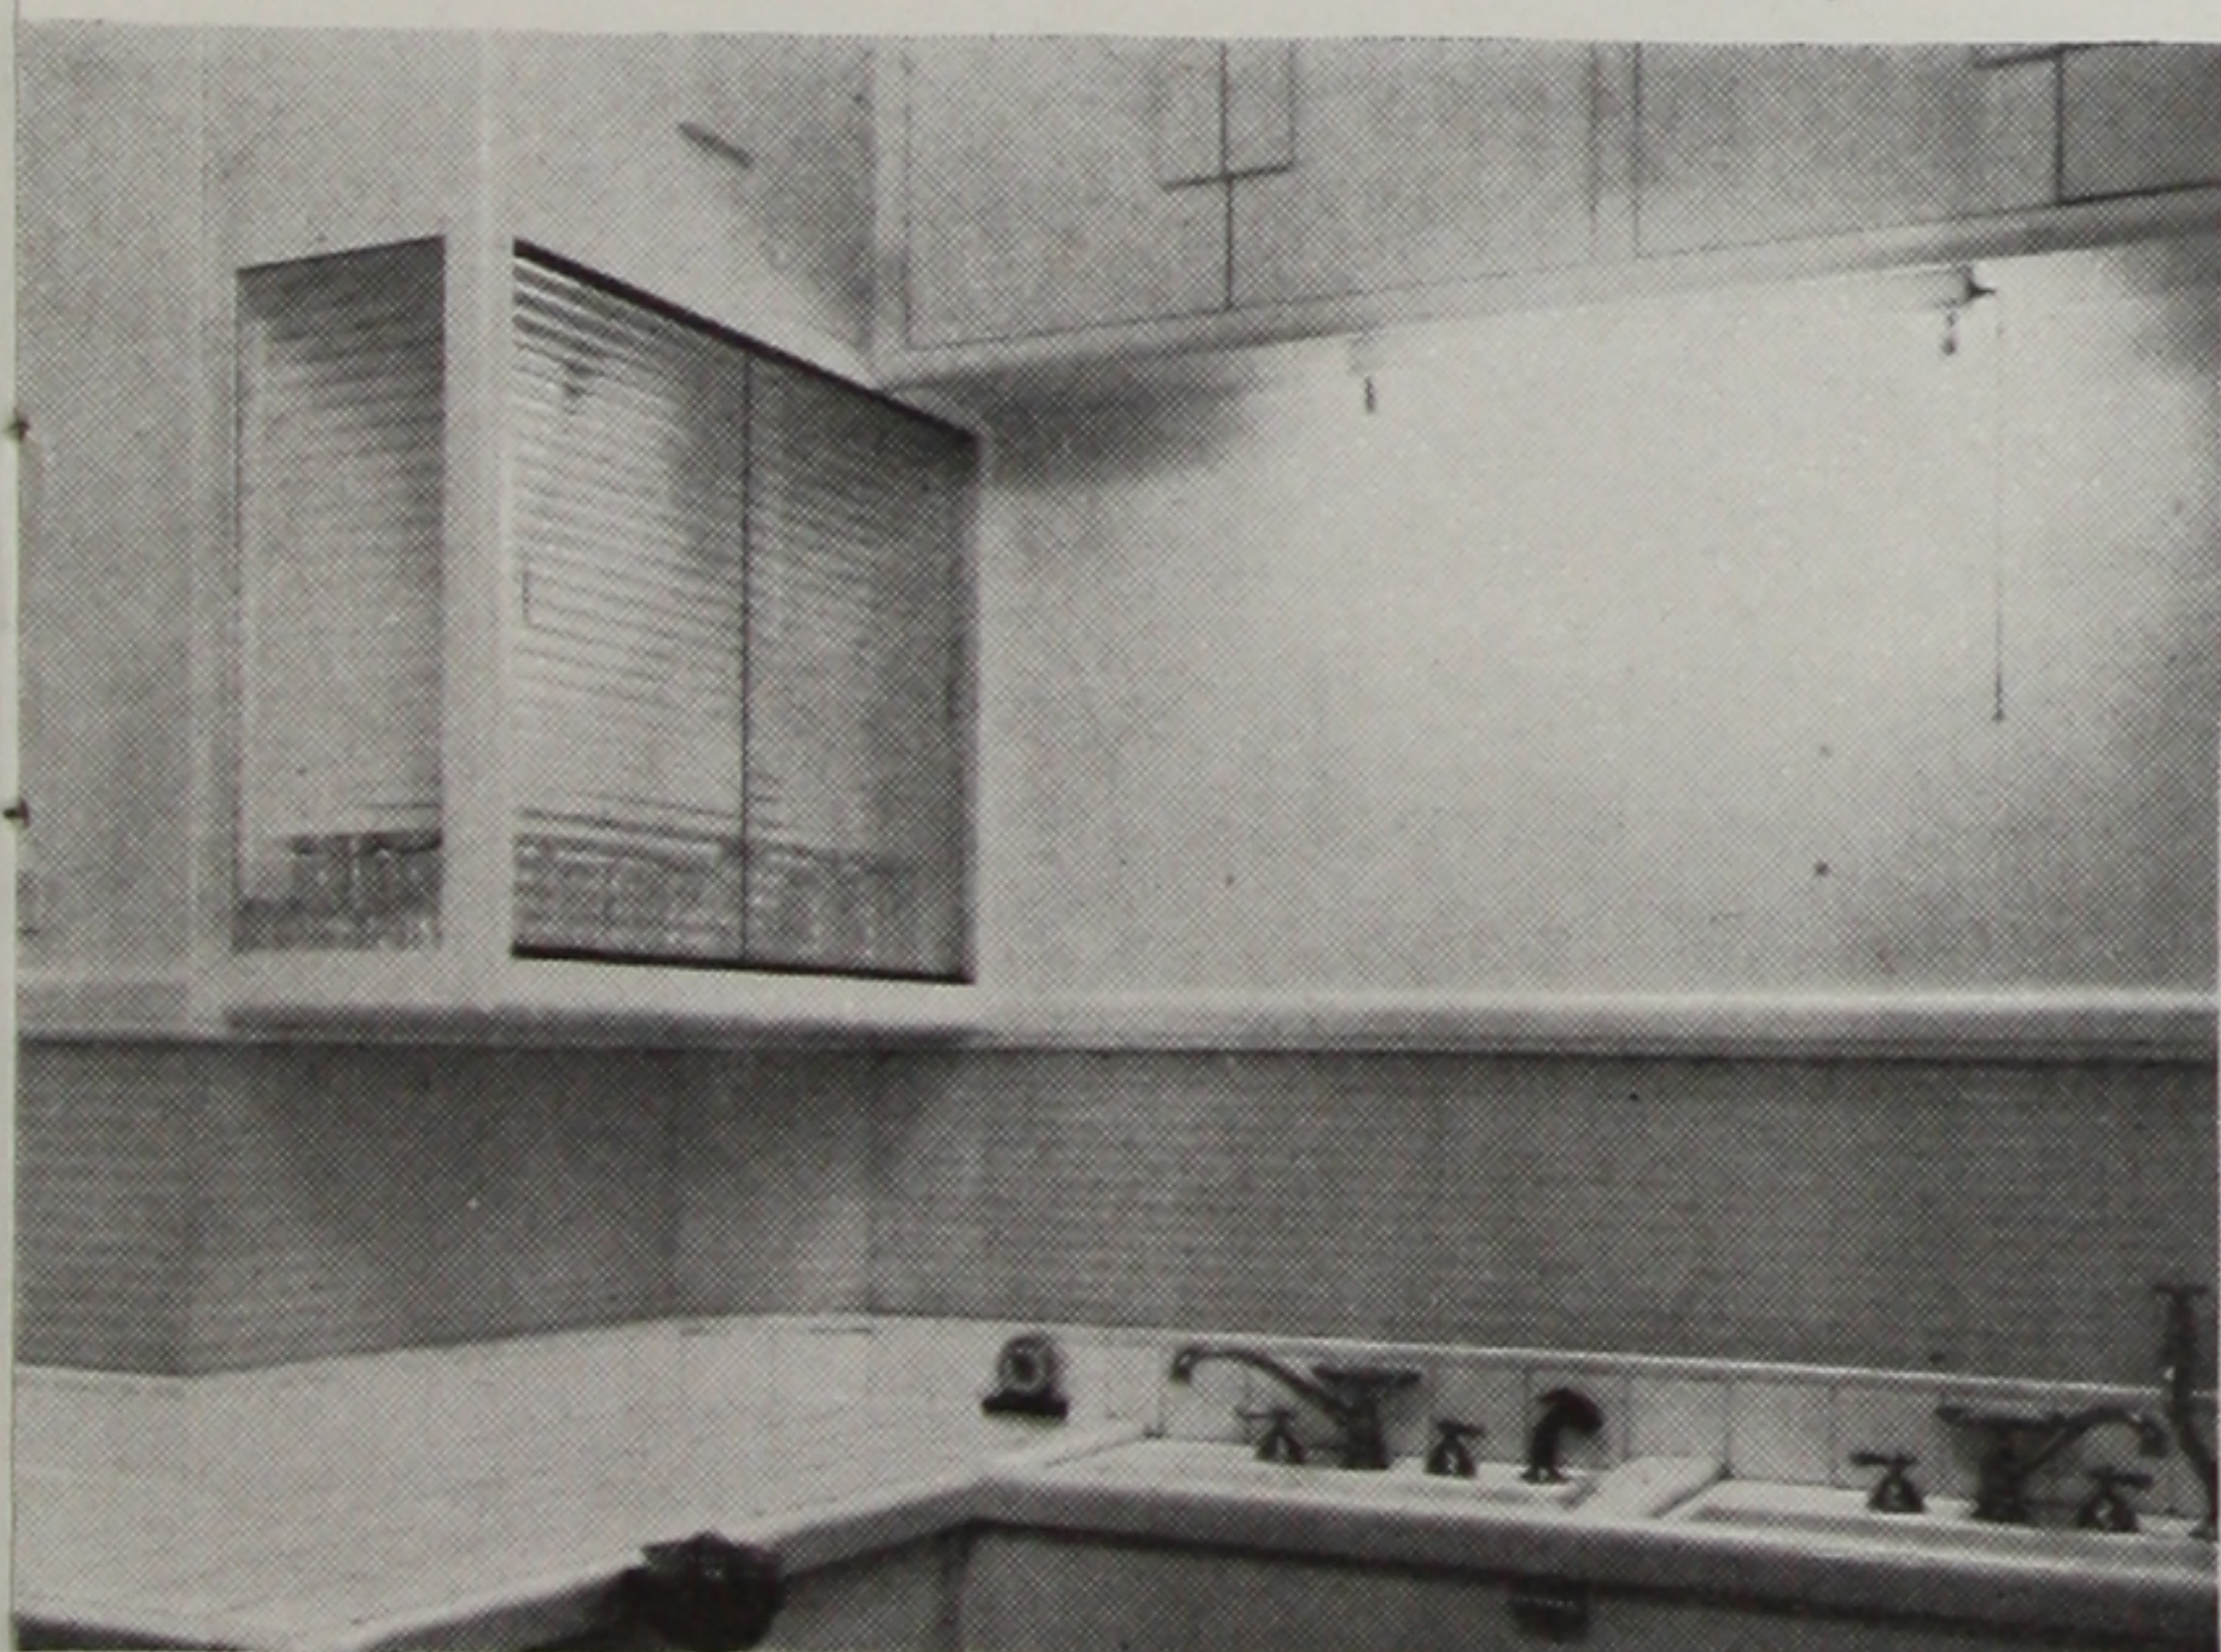

SMART USES OF

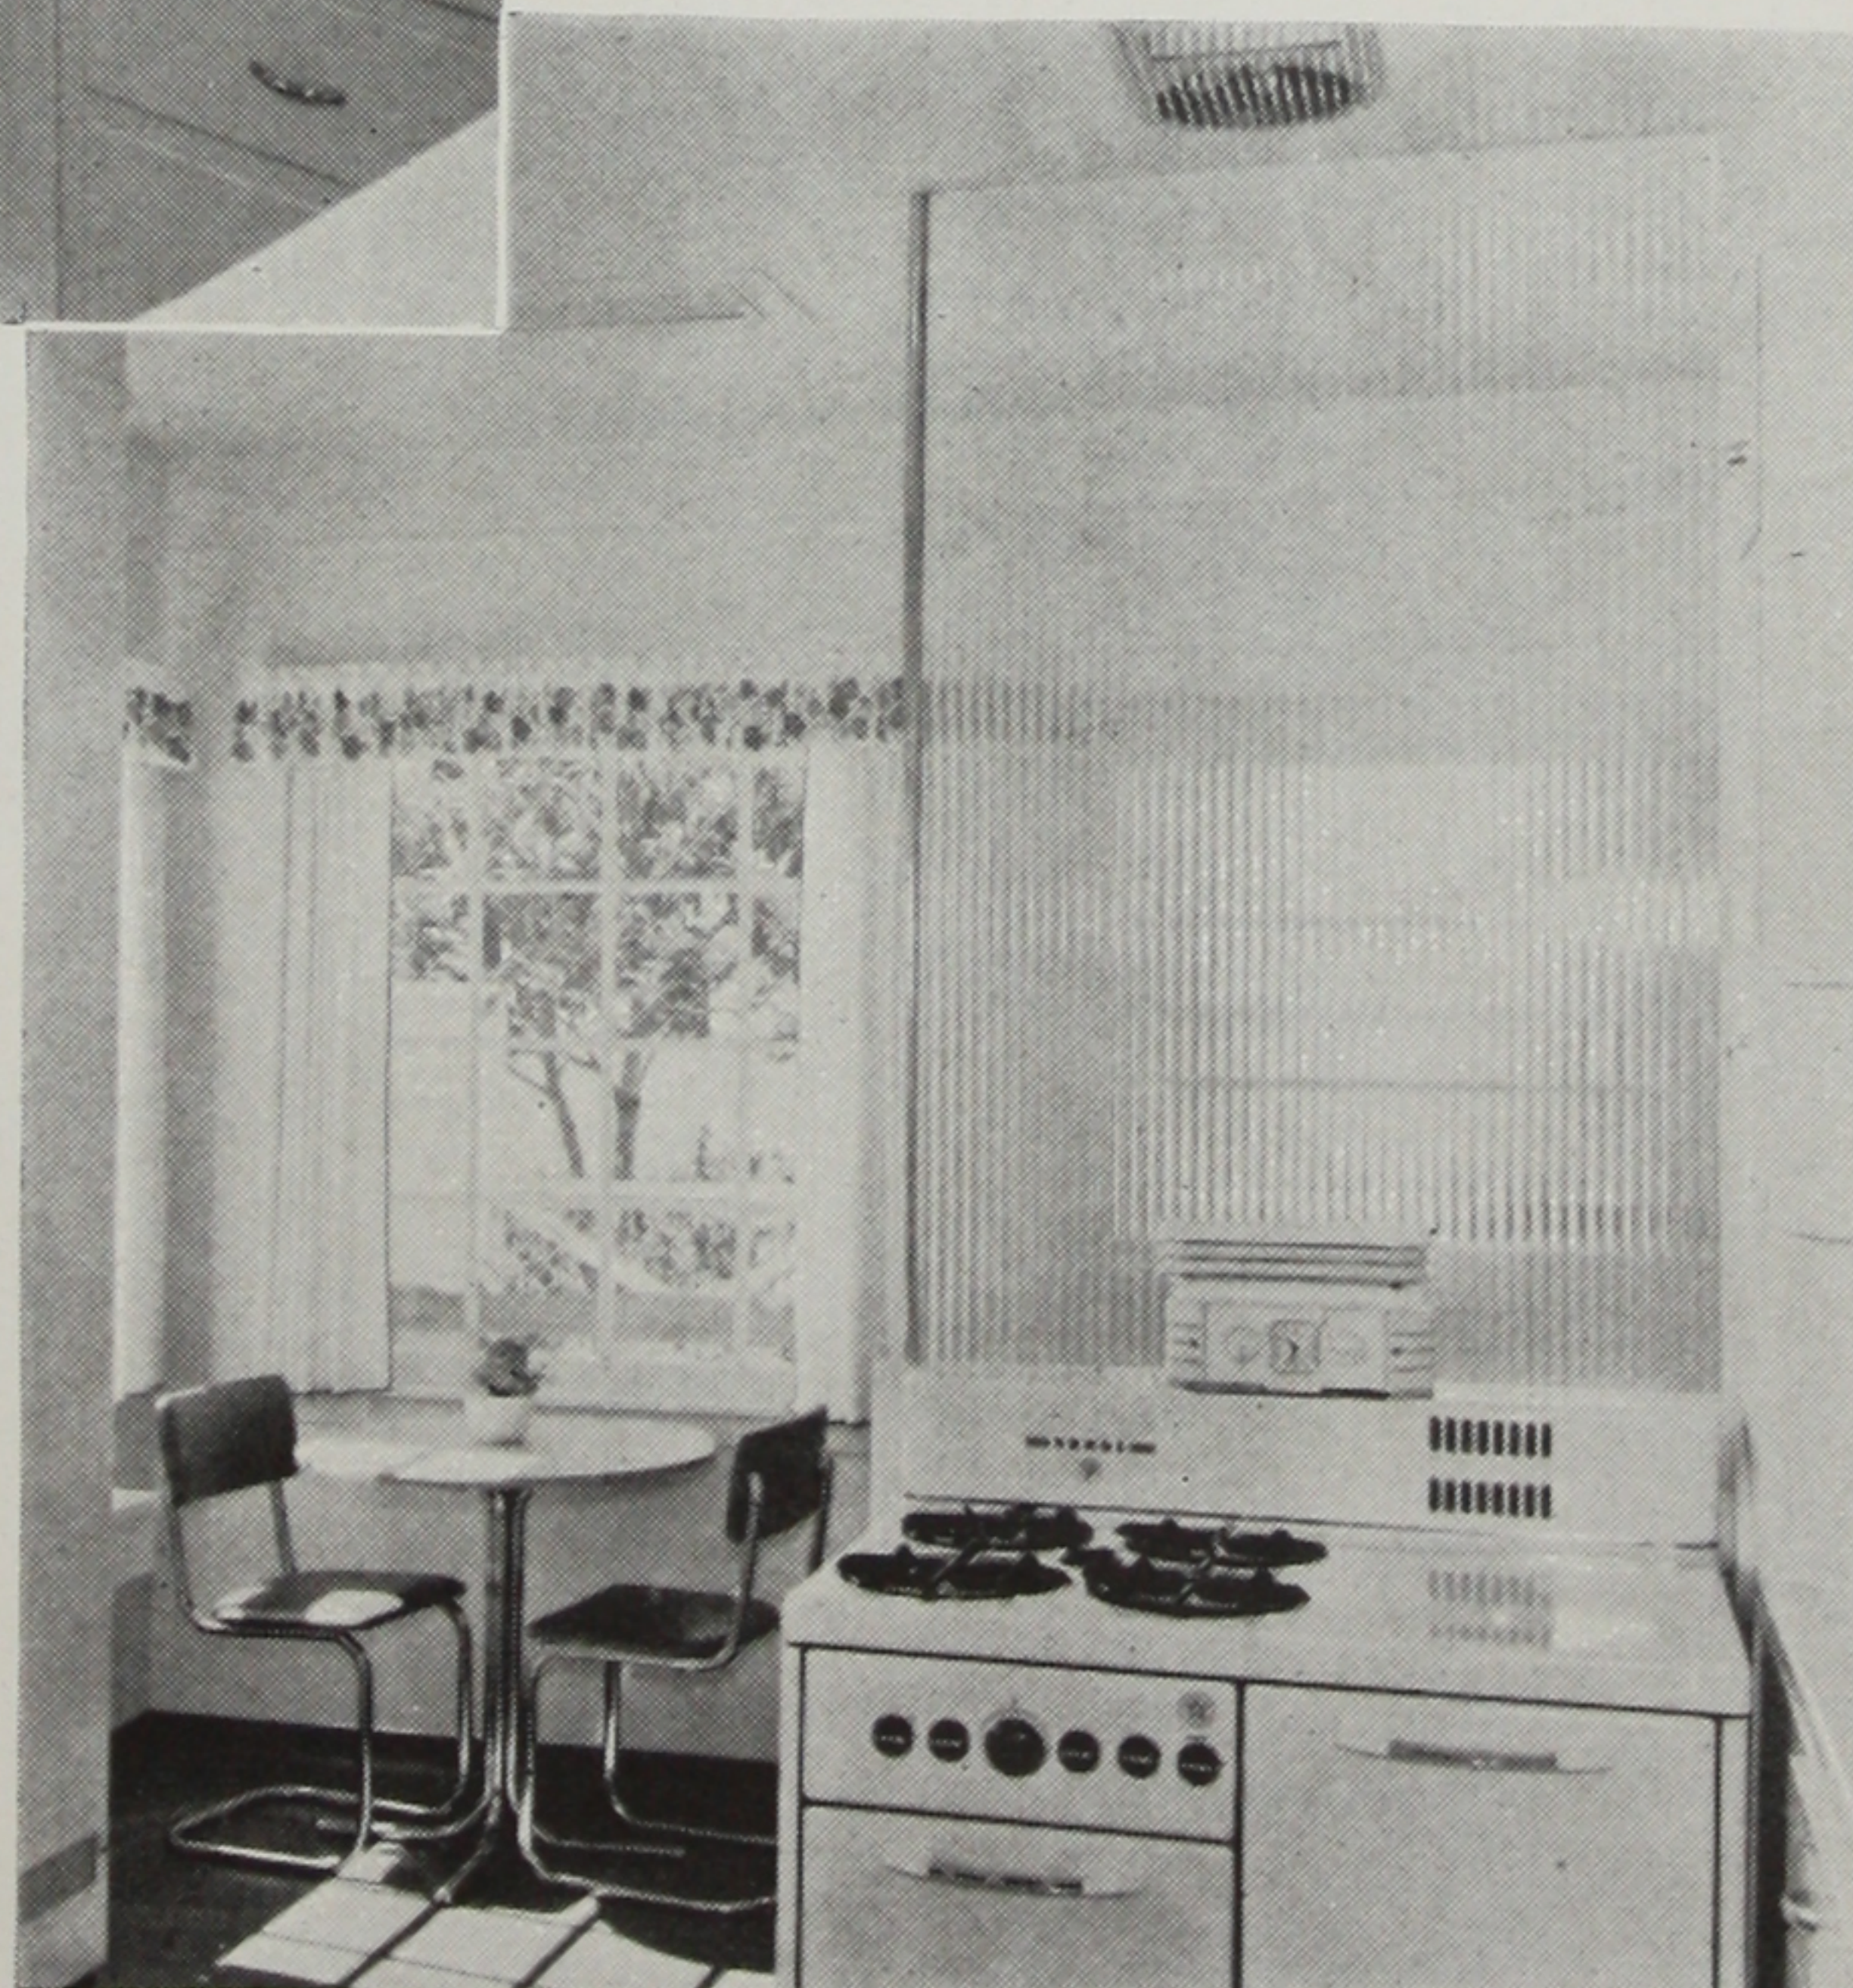

↑ CLEVER CONCEALMENT for dishes, glassware and daily essentials . . . cabinets that sport fronts as handsomely decorative as these of Blue Ridge Flutex Glass.

↑ SEPARATE your cooking area from the dining nook with a Flutex panel . . . team it with cupboard fronts of the same glass.

↑ MAKE TASKS LIGHTER with extra light for your working surfaces. Provide it with Blue Ridge linear-patterned "windowlets" like these under the cabinets.

↑ DECORATIVE BACKGROUND for your stove that serves as a dinette partition as well . . . glistening panel of attractive Blue Ridge Flutex Glass.

Glass IS SO EASY TO KEEP CLEAN...

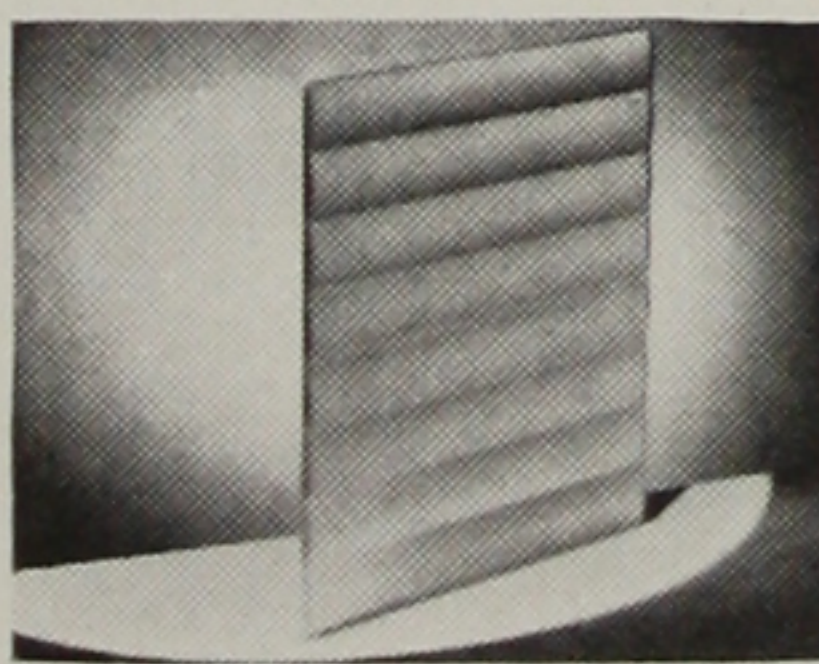

The permanent, original finish of glass is one of its most cherished qualities. It never needs to be refinished . . . retains its sparkling luster for years and years with scarcely any care. To keep glass clean and bright, it is recommended that you use a solvent cleaner with a soft, absorbent cloth. These cleaning compounds are sold in drug, department, hardware and most grocery stores. Use them in preference to any cleaner containing abrasives. With a minimum of care, your Blue Ridge Decorative Glass will be a source of enjoyment for many, many years.
